

Cut 6 pieces using template below for the crown. Cut a rectangle 5.25" by 27" for the brim. Sew the 6 crown pieces together along the side making sure to sew right sides together each time until you've completed the top of the hat. Fold rectangle in half the short way to make the brim. Attach brim to the under side of the top so that the raw edges show when the brim is folded down, this will ensure that the raw edges won't show when the brim is folded up. Sew the 2 ends of the brim together and trim excess.
